

Installation view of "Joseph Havel: Parrot Architecture" at the Dallas Contemporary

Joseph Havel: Parrot Architecture at the Dallas Contemporary. Read our interview with Joseph Havel [here](#).

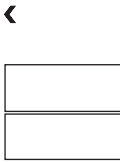

Featuring a variety of never-before-seen works, this exhibition celebrated the collaboration between sculptor Joseph Havel and Hannah, his female Congolese African gray parrot. Allowing Hannah to carve out components from cardboard acquired during the pandemic via online shopping, Havel pieced together the resulting elements to create wall assemblages and sculptures, including delicately cast bronzes.
